Create Your Legacy

Ensure future generations across Asia and the Pacific can thrive.

A Legacy That Lives On

For more than 70 years, The Asia Foundation has partnered with communities across Asia and the Pacific to expand opportunity, strengthen effective governance, advance women's leadership, improve education, and build more peaceful and prosperous societies.

By including The Asia Foundation in your estate plans, you can ensure this work continues for generations to come.

A planned gift is one of the most meaningful ways to reflect your values and create lasting impact. Whether your passion is education, women's empowerment, economic opportunity, environmental resilience, or peacebuilding, your legacy can help future generations build brighter futures.

“

My wife and I have been giving regularly to The Asia Foundation to support girls' scholarships in Vietnam. We realized that we could give a larger gift from our estate, without limiting our ability to continue to support these programs during our lifetime. This way, we feel a connection to the scholars we support, knowing that future girl scholars in Vietnam will continue to have these opportunities to expand their horizons.

Your Legacy Can Begin Today

Making a planned gift is often simpler than people realize.

You can support The Asia Foundation through:

A gift in your will or living trust

Naming The Asia Foundation as a beneficiary of your retirement account or life insurance policy

A charitable remainder trust

Other planned giving arrangements that align with your financial goals

Many planned gifts cost nothing today while creating transformational impact in the future.

Why Leave a Legacy?

When you make a planned gift, you help ensure that The Asia Foundation can respond to tomorrow's changes with the same innovation and local leadership that have defined our work for decades.

Expand education opportunities
for children and young leaders

Advance women's leadership and economic opportunity
through entrepreneurship, workforce development, and civic participation

Strengthen peace and effective governance
in communities facing conflict and change

Support environmental resilience
by helping communities prepare for environmental challenges

Invest where needs are greatest
by providing flexible resources that allow The Asia Foundation to respond quickly to emerging opportunities
